

# IMADA Screw-cap Torque Tester DTXS/DTXA series

It measures opening/closing torque of PET or glass bottles, keys or camera lenses torque. Ideal torque measurements are possible by the varieties of the tables and the pins which put and hold samples properly. The torque gauge captures small torque changes. It realizes high repeatability measurements accurately and easily.

[The image of torque measurements of a bottle cap]

## Accurate measurements and easy management

### Accuracy

Capture and save momentary force by 2000 data / min sampling speed.

Capture accurate peak value.

### Easy

Data saving in PC by included software.

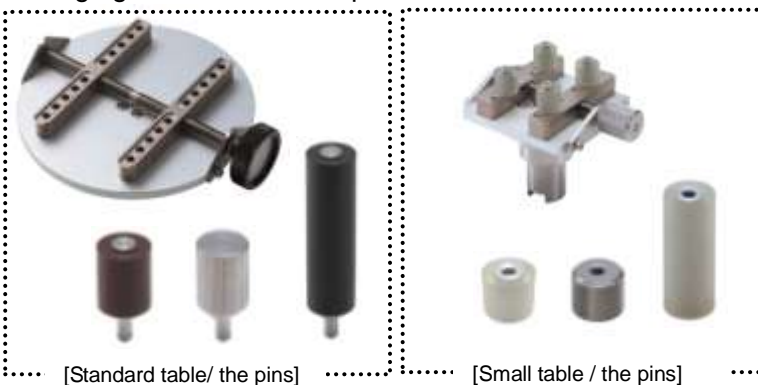

-Connect with USB cable

-Auto display of data capturing dates, results of OK/NG judgment etc...

[ZT-Logger]

## Usable for various samples

Varieties of samples enable to be measured by changing the table and the pins.

Sample examples

- PET bottles (0.5L ~ 2L)
- Glass bottles/Cans
- Camera lenses

etc.

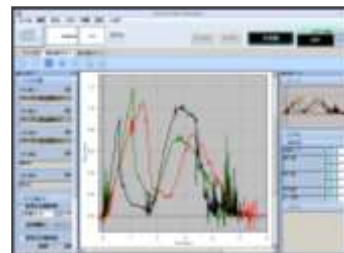

Sample examples

- Eye drop bottles
- Cosmetic containers
- Connectors

etc.

### Analysis

Drawing graphs by the separate sold software

-There are plentiful functions which help comparison and analysis of torque.

[Force Recorder Standard]

## Other Accessories

We approve customer requirements for measurements of several samples, useful measuring items and so on.

We welcome custom orders as well!!
