

- Vee blocks series, 2 piece of same size in a set, the V shape slot is in precision angle.
- After precision grinding, and there are complete size. It can be used to test the concentricity of mandrel.
- Quality warrenty

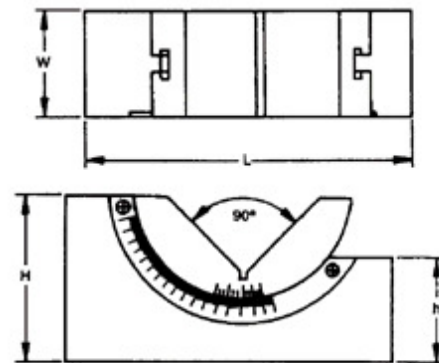

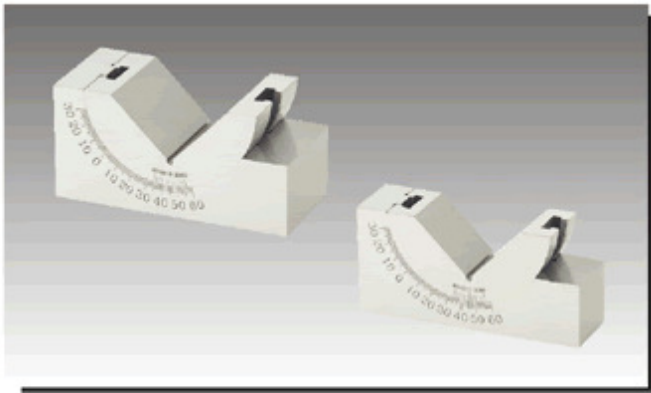

Material : SK2

Hardness : HRC56° ~ 58°

V shape slot precision: within 0.005mm.

Unit:mm

- Example:

TO MARK OUT ON A WORKPIECE

USING ON THE MILLING MACHINE

- Suitable to use in the inside of large tool maker vise. Using to pad angle for processing.

- Also can be used single, and use to pad angle for the mold.

- Quality warrenty

Material : SKS 3

Hardness : HRC55° ~ 58°

V shape groove precision: within 0.01mm.

Max. angle:30° - 0 - 60° .
