

JAPAN – Diamond Indenter Manufacturer EISEN

The quality of Indenter for Hardness Testing Machines are decided by the quality of diamond itself and crystal orientation, accuracy of form! Only Selected high quality diamond is used in EISEN.

Indenter stable quality is warranted by high metallurgy technique and grinding diamond skill measuring skill.

ロックウェル Rockwell

マイクロビッカース Micro Vickers

Product No.	Product name
ESLLR-C	Indenter for C scale Rockwell Hardness Testing
ESLLR-T	Indenter for Twin type Rockwell Hardness Testing
ESLLR-V	Indenter for Vickers Hardness Testing
ESLLR-M	Indenter for Micro Vickers Hardness Testing
ESLLR-VK	Indenter for Vickers Hardness Testing (Vickers Knoop)
ESLLR-MK	Indenter for Vickers Hardness Testing (Micro Knoop)
ESLLR-S	Diamond hammer for Shore Hardness Testing
