

Leica DISTO™ X4

Designed for bright, outdoor environments

Pointfinder camera

The DISTO™ X4 is equipped with a Pointfinder camera allowing you to easily target distant objects in bright sunlight. Even if the laser dot cannot be seen, the target appears clearly on the large colour display. The high-resolution screen ensures a crystal-clear image. Distance measurements are absolutely precise over long distances.

Leica DST 360

Make your X-series into a P2P tool

Point to Point Measuring (P2P)

The DST 360 is a great addition for your Leica DISTO™ X3 and X4. It will transform your handheld tool into a real station allowing you to measure distances between any 2 points. In combination with the Leica DISTO™ Plan app you can draw scaled plans which can be used in CAD tools.

Metal design

The Leica DST 360 is made entirely out of metal. This ensures highest robustness and continuous precision.

Precise aiming

Fine adjustment handles on the Leica DST 360 allow you to accurately aim at measurement points in seconds.

Job site ready

The Leica DST 360 comes with a compact but sturdy tripod TRI 120. Both are stored in a very robust case (IP 67) with space for your Leica DISTO™ X3 or X4. This means all your equipment is stored safely in one place.
